Re: Certain Cold-Rolled Steel Flat Products from the Republic of
Korea – Response to Anti-Circumvention Inquiry Questionnaire

Dear Secretary of Commerce,

On behalf of China Steel Sumikin Vietnam Joint Stock Company (“CSVC”), we are responding to the Department’s March 29, 2019, letter in the above referenced inquiry. CSVC did not purchase hot-rolled or cold-rolled steel coil that was manufactured in the Republic of Korea from July 1, 2015 to June 30, 2018. Furthermore, CSVC did not manufacture cold-rolled steel flat products in Vietnam using Korean hot-rolled or cold-rolled coils over the extended examination period identified in the Department’s questionnaire.

April 5, 2019

We understand that because CSVC did not purchase or use Korean hot-rolled or cold-rolled coils during the relevant period, CSVC should not be required to provide any further response to the Department's March 29 Questionnaire in this proceeding.¹ We respectfully request that the Department confirm, as soon as possible, that our understanding is correct and that no further response from CSVC is required.

Please do not hesitate to contact us if you have any questions.

Respectfully submitted,

/s/ Jeffrey M. Winton

Counsel to China Steel Sumikin Vietnam
Joint Stock Company

¹ Although, the Department's letter in this case did not specify that CSVC would be excused from providing a complete questionnaire response if CSVC did not purchase coil from Korea, the Department's letter in the concurrent Anti-Circumvention Inquiry of the Antidumping and Countervailing Duty Orders on Corrosion-Resistant Steel from Korea indicated that a questionnaire response was not required in that case if CSVC did not purchase hot-rolled or cold-rolled coil from Korea over the period. *See* Department's March 29, 2019, Anti-Circumvention Inquiry Questionnaire for Corrosion-Resistant Steel from Korea.
